

How much will it cost to go on a student exchange?

Please note that all costs are approximate, estimated in Oct 2016, and will vary according to host institution, city, country, and year of exchange.

- You will need to do your own research on the internet into usual living costs etc. at your specific destination.
- You do not pay tuition fees to your host institution while you are abroad.
- You apply to your funding body as usual, or if relevant pay tuition fees as normal to Edinburgh Napier University. **However, it is your responsibility to check with your funding body if there are any issues you should be aware of regarding the period while you are abroad.**

CAN I WORK WHILE STUDYING ABROAD?

Exchange students may work as follows while they are enrolled at their host institution:

Australia: up to 20 hours per week during term-time and 40 hours per week during vacation, on or off campus.

Canada: If you have a study permit you may work up to 20 hours per week during the semester, and full-time during vacations on or off campus. If you do not have a study permit, you may only work on your host university's campus, and this type of work may be hard to obtain. In some cases you may need to apply for a work permit.

New Zealand: up to 20 hours per week, on or off campus, during semester or vacation

USA: up to 20 hours per week but only on your host university's campus; and it may be difficult to find such work.

Please note different regulations may apply depending on your nationality. You should always check with the immigration authorities of the country where you hope to study for latest information. You should not rely on finding employment when abroad, as this cannot be guaranteed.

OTHER SOURCES OF FUNDING

See [Student Mobility & Small Project Grants](#). The Student Grant Initiative, Dame Joan Stringer International Student Travel Fund and the Santander Mobility Scholarship tend to be the most likely possibilities, but please be aware that these funds are normally awarded to project type activities rather than a regular exchange experience. The application rounds are in October and February. Queries to the **Development and External Relations team** at development@napier.ac.uk.
